ABOUT US

## VARDØ

*Our team is looking for artists and other creative people who are passionate about nature and would be interested to share our story through their art. We will be able to provide place to stay or even full experience by settling in a host families, so that you can immerse with the Norwegian culture. Vardø community wants to retain its intimate, secluded and private atmosphere and wants to steer away from mass tourism, therefore we're interested in someone who can share these values of the local community through their art. We are happy to host you as long as you want to stay, either it's a few days, weeks or even months. Are you interested?*
